JUAN CARLOS MONJE ORTIZ, MD

Medical Doctor (MD) · Laboratory Diagnostics, Microbiology & Medical Genetics

B2B Medical Advisory · Official Accreditation Dossiers · NGS Clinical Utility · IVD Analytics

Toledo / Madrid, Spain · contacto@gabinetedrmonje.es · +34 635 375 047 · linkedin.com/in/juan-carlos-monje-ortiz-675949190
Licensed Physician in Spain (College Reg. No. 450865017 Toledo) · Official Ministry of Universities Homologation

PROFESSIONAL SUMMARY & SERVICE COMMITMENT

Licensed Medical Doctor in Spain with over 6 years of solid clinical experience combined with postgraduate university qualifications in Clinical Laboratory Diagnostics, Medical Genetics, Clinical Microbiology (1-year hospital residency training), and Molecular Biology. Serving as an external medical advisor for biopharma companies, diagnostic laboratories, healthcare training organizations, and specialized clinics: providing medical oversight, scientific interpretation of complex biomarkers, and rigorous technical writing (clinical utility dossiers, NGS/microbiome variant curation, and analytical performance reports). Deeply committed to service, white-label collaboration under NDA, and reliable turnaround within 24–48 hours.

TECHNICAL DOMAINS & B2B CONSULTING CAPABILITIES

Clinical Laboratory & Analytical Quality: Clinical interpretation of clinical biochemistry, diagnostic hematology, and immunology; pre-analytical, analytical, and post-analytical quality assurance under Good Clinical Laboratory Practice (GCLP); analytical performance evaluation for IVD assays and reagents.

Clinical Microbiology & Microbiome Ecology: Microbial culture, susceptibility testing, and molecular diagnostics (qPCR); interpretation of 16S metagenomics and mucosal barrier/dysbiosis biomarkers (zonulin, calprotectin, endotoxemia/LPS) applied to preventive medicine and longevity protocols.

Medical Genetics, Molecular Biology & NGS: Interpretation and clinical correlation of germline and somatic variants under ACMG/AMP/ClinGen guidelines; translational guidance in precision oncology, predictive biomarkers (PD-L1, MSI, ctDNA), and pharmacogenomic safety assessment.

Official Medical Documentation & Sales Enablement: Preparation of Continuing Medical Education (CME/CFC) technical accreditation dossiers under SNS guidelines (Bloom's Taxonomy); M2M scientific monographs with primary PubMed indexing; medical accuracy audits (E-E-A-T) for health e-commerce portals.

SCIENTIFIC, PHARMACOLOGICAL & ANALYTICAL ACCREDITATIONS

ICH E6(R3) Good Clinical Practice — Investigator Site Training *07/10/2026 · Score: 95%*
Global Health Training Centre / The Global Health Network · TransCelerate BioPharma Standard

Full compliance with international ethical and scientific quality standards (ICH E6(R3)) for clinical research. · Credential: `ecde336e-ca0a-42ad-9732-c56b9ee86d8f`

Principles of Clinical Pharmacology *Official Edition 2026 – 2027*
National Institutes of Health (NIH) — Office of Clinical Research Education

Pharmacokinetics (PK), pharmacodynamics (PD), pharmacogenomics, therapeutic drug monitoring, and clinical safety.

Introduction to Good Clinical Laboratory Practice (GCLP) *07/10/2026 · Score: 95%*
Global Health Training Centre / The Global Health Network · Laboratory Analytical Quality

Analytical quality assurance, specimen chain of custody, and regulatory inspection readiness for laboratories. · Credential: `c0859d2b-e06b-4933-ab69-32cb7b4b4949`

Introduction to Reviewing Genomic Research *07/10/2026 · Score: 100%*
Global Health Training Centre / The Global Health Network · Genomic Research & Ethics

Scientific and ethical governance in genomic research: NGS informed consent, biobanking, and secondary findings. · Credential: `2d69ac30-84dc-46fd-83d2-219ec14f5c31`

Introduction to Collecting and Reporting Adverse Events in Clinical Research *07/10/2026 · Score: 100%*
Global Health Training Centre / The Global Health Network · Pharmacovigilance & Safety

Identification and reporting of adverse events (AE/SAE/SUSAR), CTCAE v5.0 grading, and clinical causality assessment. · Credential: `05e36455-973b-4d03-a3ab-4b7f52aed571`

Data Safety and Monitoring Boards (DSMB) for Clinical Trials *08/10/2026 · Score: 100%*
Global Health Training Centre / The Global Health Network · Safety Monitoring

Independent Data and Safety Monitoring Boards (DSMB/DMC), interim analyses, and clinical trial stopping rules. · Credential: `c2c2ac8b-60ed-43f5-86b9-4d5b2b3840c7`

CLINICAL PRACTICE, LABORATORY TRAINING & MEDICAL CONSULTING

Medical Director & B2B Medical Consultant — Dr. Juan Carlos Monje Ortiz Medical Practice *October 2026 – Present*

Toledo / Madrid, Spain

- Drafting official Continuing Medical Education (CME/CFC) technical dossiers aligned with Bloom's Taxonomy standards.
- Developing mechanism of action (MoA) monographs and clinical utility documentation for diagnostic platforms (NGS / IVD).
- Conducting medical accuracy and E-E-A-T audits for health and nutritional platforms, optimizing clinical credibility.

Physician — MIR Hospital Residency Training (Microbiology & Parasitology) — Toledo University Hospital (SESCAM) *May 2024 – May 2025*

Toledo, Spain

- Completed 1-year hospital residency training: diagnostic processing of blood/urine cultures, microbial isolation, and susceptibility testing.
- Molecular diagnostics via real-time PCR (qPCR) and molecular detection of antimicrobial resistance determinants.
- Pre-analytical and post-analytical quality control under Good Clinical Laboratory Practice (GCLP) standards.

General Physician — Clinical Evaluation, Auditing & Preventive Medicine — Vitaly Health Services *2024 – 2025*

Toledo, Spain

- Medical record audits and electronic health record (EHR) data quality assurance ensuring clinical compliance.
- Systematic evaluation of pharmacology profiles, multi-organ drug interactions, and chronic disease screening.
- Standardized medical reporting and ICD-10 coding with clear, empathetic patient and corporate communication.

Emergency & Primary Care Physician — Hospital Comarcal d'Amposta / Institut Català de la Salut (Sabadell) *September 2023 – April 2024*

Catalonia, Spain

- Acute patient management and urgent clinical decision-making based on international European guidelines.
- Rapid interpretation of emergency laboratory workups, arterial blood gases, and cardiac biomarkers.
- Active listening and clear communication with patients and families under high-pressure clinical circumstances.

Hospital Ward & Emergency Physician — Procedural Sedation — Hosp. Univ. Clínica San Rafael Bogotá / Hosp. Pedro León Álvarez Díaz / Hosp. San Rafael Facatativá *February 2021 – August 2023*

Colombia

- Comprehensive inpatient management of complex multi-organ pathology and narrow therapeutic index drug monitoring.
- Supervised procedural sedation (ASA I–III) for diagnostic endoscopy with continuous hemodynamic monitoring.
- Advanced Cardiovascular Life Support (ACLS) and effective multidisciplinary team collaboration.

MEDICAL EDUCATION & OFFICIAL UNIVERSITY POSTGRADUATES

Doctor of Medicine (MD) / Physician and Surgeon *2014 – 2020*

Universidad de Ciencias Aplicadas y Ambientales (U.D.C.A.) · Official Homologation by Spanish Ministry of Universities

Comprehensive 6-year medical degree (360 ECTS). Fully licensed to practice medicine in Spain and throughout the European Union.

Master's Degree in Clinical Genetics and Human Reproduction (60 ECTS) *2025 – 2026*

Universidad EUNEIZ / Faro Edtech — Spain | Official Reg. 211682

Molecular genetics of hereditary diseases, oncogenetics, pharmacogenomics, and variant classification (ACMG/AMP guidelines).

Master's Degree in Biological Analysis and Laboratory Diagnostics (60 ECTS) *2024 – 2025*

Universidad EUNEIZ / Faro Edtech — Spain | Official Reg. 125756

Clinical biochemistry, diagnostic hematology, immunology, clinical toxicology, and laboratory quality management systems.

University Specialist in Molecular Biology Applied to Medicine (30 ECTS) *2025 – 2026*

Universidad EUNEIZ / Faro Edtech — Spain | Official Reg. 228483

Molecular biology techniques, next-generation sequencing (NGS), digital PCR, transcriptomics, and gene/cell therapy.

MEDICAL INFORMATICS, CLINICAL AUTOMATION & TECHNICAL COMPETENCIES

- **Deterministic Evidence Ingestion & Curation:** Development of Python-based pipelines to ingest scientific APIs (NCBI PubMed, ClinicalTrials.gov, Crossref), automating literature triage and preventing manual transcription errors or hallucinations.
- **Reproducible Document Engineering (Typst & CLI):** Terminal-driven workflows in Linux for programmatic compilation of CME dossiers, IVD technical summaries, and PER reports, cutting turnaround times from weeks to under 48 hours.
- **Clinical Data Auditing & Safety Checks:** Algorithmic cross-referencing of diagnostic panels, biomarkers, and drug labels (SmPC/EMA/AEMPS) for robust clinical decision support.
- **B2B Standards & Confidentiality:** White-label delivery, immediate NDA execution, professional liability insurance (€600k). Spanish (native) & Professional Medical English (fluent technical writing and critical review).
